# ALKA-Plus

**The Best Option for Alkaline Water**

Made in USA  
 New European Technology  
 Tankless On-Demand Flow  
 Stainless Steel  
 Super Compact (4")  
 Elegant and Simple  
 pH level 8+  
 No holding tank required  
 Purifies your water instantly

Power supply: 110 V – 50 Hz  
 Engine: liquid-cooled 180 W – 110 V – 50/60 Hz  
 Pump: rotary vane pump for high pressure in brass, NSF certified – 80 Gallons per hours  
 Operating pressure: 100/115 psi  
 Pressure of incoming water: min 15psi – max 72psi  
 Percentage of TDS rejection : 90 % – 95 %  
 Permeated drain ratio: 1/2.2  
 Total of incoming dissolved solids: max 2500 PPM  
 Admitted PH of incoming water: min 3 – max 11  
 Weight: 35 pounds  
 Dimensions: 4-18-16 IN (W-L-H)  
 Electronic control unit – anti-flooding acoustic sensor with block functions for incoming water– acoustic signal when filters are exhausted.

# Benefits of Alkaline Water

Alkaline Water provides more oxygen than any other kind of water, without the toxic or acidic contaminants.

- Neutralizes excessive acidity in our blood.
- Increases cell oxygenation and allows for better hydration.
- Oxygen can help destroy cancerous cells.
- Facilitates digestion and bio-assimilation.
- Helps us permanently by losing weight in a healthy manner.
- Powerful Antioxidant effect.
- Controls heartburn while cleaning the colon, liver, kidneys, lungs and skin.
- Reduces the accumulation of acidity in exercising muscles, improving workout intensity and recovery time.
- Improves Metabolism.
- Increases Energy.

## How It Works

- Control unit - Provides anti-leaking detector and reports any errors in the system.
- Rotary brass pump - Delivers 30 gal-per-hour to provide on-demand purified flow.
- Carbon stage - Removes all chemical elements, like chlorine to provide better taste and odor.
- RO membranes - Filtrates all particles and pollutants with smart technology that will do an auto-flush cleaning every 8 hours.
